INTENSIVE CLINIC DETAILS

EVALUATIONS

To determine eligibility and appropriate grouping, a comprehensive speech-language evaluation will be conducted. Please call to schedule. Recent speech-language evaluation and therapy reports or IEPs are requested to determine the need for evaluation and to the extent necessary.

This clinic must have a speech-language evaluation on file dated 09/01/21 or later.

CHANGE TO PROGRAM FEES—2022

- Intensive **services are free of charge**, with the exception of a **\$50 materials fee** that is **due with your application** in order to be considered.
- The materials fee is non-refundable, unless the SUNY Buffalo State Speech-Language-Hearing Clinic is unable to place your child in an appropriate group.

APPLICATIONS

For applications to be considered, all of the following must be received on or before **May 20, 2022**:

1. A completed application form
2. A speech-language evaluation report (dated 09/01/21 or later) or a scheduled speech-language evaluation
3. **\$50 materials fee**

APPLY EARLY

The program fills up quickly and acceptance will be based on a first-come, first-served basis and the availability of an appropriate placement.

THE INTENSIVE LANGUAGE, LITERACY, AND AUDITORY PROCESSING CLINIC

Children who have difficulty with speech, language, or hearing (auditory processing) often have difficulty learning to read, write, and spell. This program is designed to address underlying language, literacy, and processing skills necessary for academic and social success.

The following areas may be addressed, dependent upon individual needs: auditory processing, phonological awareness, oral discourse, receptive and expressive language (vocabulary and grammar), word finding, reading, writing, and spelling. This program promotes the development of skills, compensatory strategies, and self-advocacy.

Child must demonstrate the ability to productively take part in a small group for 2.25 hours. Child may be discharged if unable to participate.

Program Coordinators:

Theresa M. Cinotti, M.A., CCC-SLP
Kathryn Budin, M.S. Ed., CCC-SLP

Program Schedule:

June 28, 2022—July 21, 2022

4 weeks, 12 days, 2.25 hours per day

Morning Session: 9:00am-11:15am
Afternoon Session: 12:30pm-2:45pm

IMPORTANT SESSION INFORMATION:

- We are unable to honor requests for specific session times. Your child will be assigned to his or her session by the Program Coordinators according to age, ability, and availability of an appropriate group. Thank you for your understanding.
- Sessions will begin and end on time. Prompt arrival and pickup are expected.

THE INTENSIVE STUTTERING CLINIC

Over three million Americans stutter, approximately 1% of the population. The impact of stuttering can exceed its severity, thus affecting a child's self-esteem, school success, social wellbeing, and life. As such, the main focus of therapy targets stuttering acceptance and advocacy. Our message remains consistent: It's okay to stutter. In addition, the SUNY Buffalo State Intensive Stuttering Clinic incorporates Stuttering Modification and Fluency Shaping Therapy approaches.

Program Goals:

- Enhance acceptance and understanding of speech and stuttering to diminish the negative consequences or impact
- Manage and modify stuttering and associated behaviors
- Improve communication and more speech spontaneity

Family participation is vital to the success of the program and is encouraged. One to two parent group meetings will be hosted as an avenue for learning and open discussion.

Program Coordinators:

Ron Houk, M.S., CCC-SLP
Chris Heximer, M.A., CCC-SLP

Program Schedule:

June 28, 2022—July 21, 2022

4 weeks, 12 days, 3 hours per day (8:30-11:30am)

COVID-19 INFORMATION:

- While full attendance is encouraged, children should not attend if exhibiting symptoms associated with COVID-19. Daily wellness checks, masking procedures (if mandated), and social distancing will be employed dependent upon policies in place at the time of service.
- In-person programming is planned; however, mode and intensity of services may be changed at any time in accordance with the CDC, Dept. of Health & SUNY guidelines.

ABOUT THE SUNY BUFFALO STATE SPEECH-LANGUAGE-HEARING CLINIC

Established in 1956, the clinic is affiliated with SUNY Buffalo State's Speech-Language Pathology Department, which is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association (ASHA). Services are provided by graduate students under the direct supervision of faculty and professional staff members. Supervisors are licensed by New York State and hold the Certificate of Clinical Competence from ASHA.

Directions: The clinic is located on the SUNY Buffalo State campus, in Caudell Hall on Iroquois Dr., accessible via Elmwood Ave. or Grant St. Parking is available in lot I-34 (additional parking is available in lot I-32).
